This test sample, Kanna Extract MT55 (107200820) is not consistent with the chromatographic profile of the reference samples of *Scellium tortuosum*, used above. **This test sample Kanna Extract MT55 (107200820) does not have characteristics of *Scellium tortuosum* aerial part.**

OOS report generated for this sample. Reference# 20338JMX\_1: OOS-TLC-2020-1634.

NOTE: The above conclusion may be a function of the natural variance found in botanicals &/or the extraction process used to create specific extracts, the growing and drying conditions, age, seasonal variations, geographic location, extraction solvents, etc. all play a role in the phytochemical fingerprint of botanicals as well as their extracts; hence, chromatographic variations are expected.
